Advantages

During sample sterilization, bad smell can emerge from the autoclave.

Place one capsule (or 2 if the odor is strong) in the water at the bottom of the autoclave.

After a sterilization cycle, the capsule melts, allowing the perfume to be released.

- Work comfort
- Compatible with any autoclave
- No effect on the autoclaving
- Pleasant perfume
- 100% biodegradable

Applications

- For any kind of autoclave (max: 200 L), recommended for food industry.
